

Hon'ble Prime Minister Shri Narendra Modi

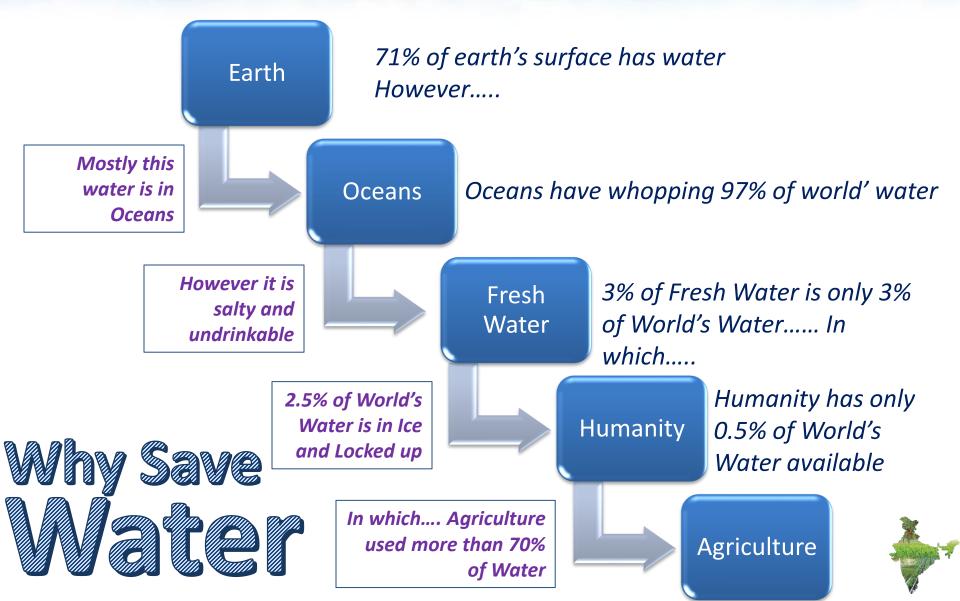

World Water Day

UN WATER 22 MARCH WORLD WATER DAY

dhanuka

In 40 Years, world population has become double

Demand for water has become 4 times

India has just 4% of the world's fresh water

but 18% of the global population

Do not waste Drinking Water provided by your school

Keep Taps tightly closed after use

Check taps & flushes for leakage & inform your teacher immediately

Prefer dry cleaning (brooms) instead of frequent Moping (Wiping/washing)

Set up a water collection system to gather rain for watering plants and other non-potable uses

Mulch around existing plants and trees to reduce evaporation and growth of weeds

Regularly plant samplings in your school grounds or gardens

Spread the message of Save Water

(Share tips with your friends, family, neighbors & teachers)

Leveling of fields

Deep Summer Ploughing

Sprinkler Irrigation

Drip Irrigation

Mulching

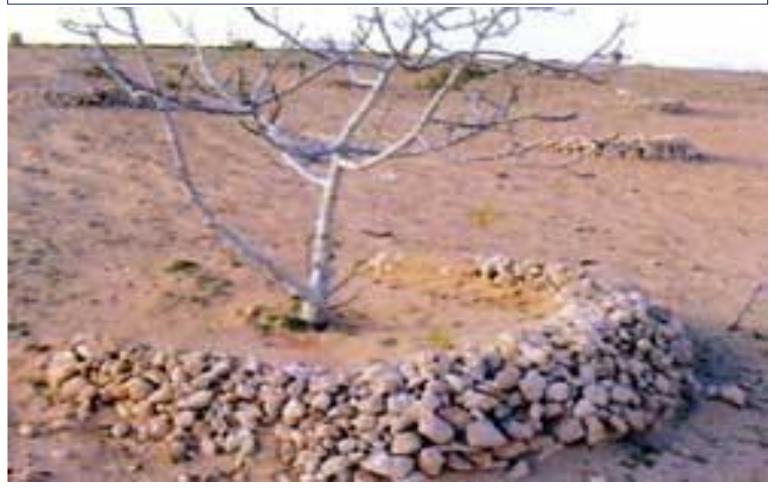

Ridge and furrow method of crop cultivation

Construction of Small Farm Bunds

Construction of Field Bunds

To ensure Khet Ka Paani Khet Mein - Gaon ka Paani Gaon Mein

Cultivating across the slope

Constructing Contours

Cultivate Crops with foliage cover – *E.g. Cotton*

Prefer to include crops resistant to soil erosion – *Like M*oong, Urad, Guar, groundnut

SAVE WATER OORS

Roof Water Harvesting Rain Water Tanks

Recharging of Wells

Avoid to Wash Your car. Instead wipe with a wet cloth

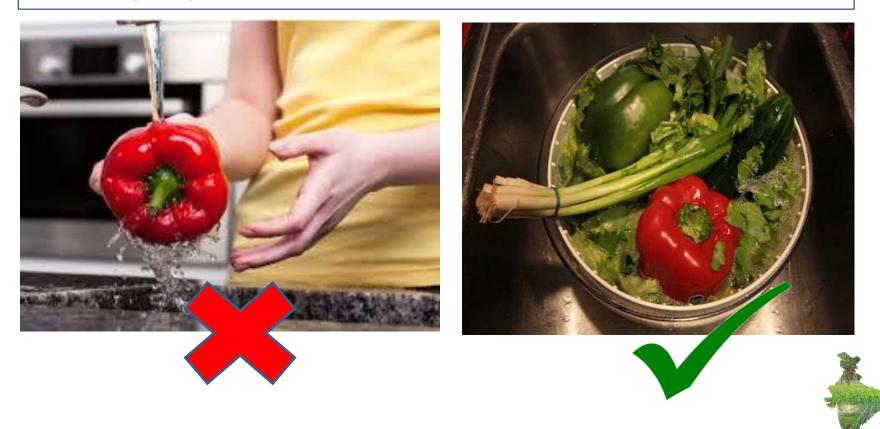

SAVE WATER INDOORS

Use a vessel to wash vegetables & fruits instead of running tap

Re-Use waste water from kitchen for your plants (After washing fruits/vegetables)

After washing clothes/utensils, use that soapy water to flush

Keep the tap shut when not in use

Repair every Leakage immediately

Run Washing Machine only when at full capacity

Save every drop of water

thanky WATER HARKYOU. Hanky WATER WATER
